**NOTES from the European Patent Office on the advice of despatch :**

- (1) : The address of the national Office may be printed in or indicated by means of a stamp.
- (2) : The date of receipt at the EPO of the advice of despatch (and thus of the files/subsequently filed documents despatched) is indicated in this area by means of a perforating stamp.  
This date also doubles as the date on which the communication under Rule 24(4) EPC was despatched to the applicant/representative (copy of page 5 of the request for grant).
- (3) : Here the national Office should enter the serial number of the advice of despatch, thus enabling it to keep continuous track of the files despatched and of the EPO's return of the advice.
- (4) : The application numbers of altogether thirty new applications can be entered in the three columns of each advice of despatch. These numbers may be handwritten or, alternatively, a self-adhesive sticker bearing the number(s) may be affixed.
- (5) : In the case of subsequently filed documents (where the file is already on its way to The Hague) the relevant application number should be entered here.
- (6) : Date actioned, and signature of person dealing with the matter at the national Office.
- (7) : If the application numbers appearing on the front do not tally with those on the documents sent, the EPO notifies the national Office accordingly and the EPO employee carrying out the check appends his or her signature to this notification.
